

## The Vaccine Fraud – Quotes

The first smallpox vaccine was conceptualized in 1796. Since that time, vaccination has been rife with controversy. Let's review what writers, doctors, and scientists have observed about vaccines across three centuries: the 19th, 20th, and 21st...

19th Century (1800's)

"There does not exist one single fact, in all the experiments and improvements made in science, which can support the idea of vaccination. A vaccinated people will always be a sickly people, short lived and degenerate." -- Dr. Alexander Wilder, MD, author of *Vaccination: A Medical Fallacy*, editor of the *New York Medical Tribune*, 1879

"I have seen leprosy and syphilis communicated by vaccination. Leprosy is becoming very common in Trinidad; its increase being coincident with vaccination." -- Dr. Hall Bakewell, Vaccinator General of Trinidad, 1868

"Cancer is reported to be increasing not only in England and the Continent, but in all parts of the world where vaccination is practiced." -- Dr. William S. Tebb, MA, MD, DPH, author of *The Increase of Cancer*, 1892

"Leprosy arose with vaccination." -- Sir Ronald Martin, MD, 1868

"Syphilis has undoubtedly been transmitted by vaccination." -- Sir William Osier Bt., MD, FRS, FRCP

"To no medium of transmission is the widespread dissemination of this class of disease (syphilis) so largely indebted as to Vaccination." -- Dr. B.F. Cornell, MD, 1868

"Every intelligent person who takes the time to investigate vaccination, will find abundant evidence in the published writings and public records of the advocates of vaccination, to prove its utter worthlessness, without reading a line of anti-vaccination literature. And if we could add to this all the suppressed facts, we would have a mass of evidence before which no

vaccinator would dare to hold up his head." -- Dr. Robert A. Gunn, MD, *Vaccination: Its Fallacies and Evils*, 1882

"I have no faith in vaccination, nay, I look upon it with greatest disgust, and firmly believe that it is often the medium of conveying many filthy and loathsome diseases from one child to another, and it is no protection from smallpox." -- Dr. William Collins, MD, London, 1882

"Vaccination has made murder legal. Vaccination does not protect against smallpox, but is followed by blindness and scrofula. Jennerism (Edward Jenner, an English physician who was a contributor to the development of the smallpox vaccine) is the most colossal humbug which the human race has been burdened with by FRAUD and DECEIT." -- Mr. Mitchell, member of the British House of Commons

"Of these dogmas, I believe the practice known as vaccination to be the most absurd and most pernicious. I do not believe that a single person has ever been protected from smallpox by it; while I know that many serious bodily evils and even deaths, have resulted from its employment. The whole theory is founded upon assumption, contrary to common sense and entirely opposed to all known principles of physiology. Every physician of experience, has met with numerous cases of cutaneous emptions, erysipelas and syphilis, which were directly traceable to vaccination, and if these cases could be collected and presented in one report, they would form a more terrible picture than the worst that has ever been drawn of the horrors of smallpox." -- Dr. Robert A. Gunn, MD, Dean of the United States Medical College of New York

"Vaccination is a monstrosity, a misbegotten offspring of error and ignorance; and, being such, it should have no place in either hygiene or medicine... Believe not in vaccination, it is a worldwide delusion, an unscientific practice, a fatal superstition with consequences measured today by tears and sorrow without end." -- Dr. Carlo Ruta, Professor of Materia Medica at the University of Perugia, Italy, 1896

"Vaccination is a grotesque superstition." -- Dr. Charles Creighton, MD, MA

"Vaccination is a gigantic delusion. It has never saved a single life. It has been the cause of so much disease, so many deaths, such a vast amount of utterly needless and altogether undeserved suffering, that it will be classed by the coming generation among the greatest errors of an ignorant and prejudiced age, and its penal enforcement the foulest blot." -- Alfred R. Wallace, LLD DUBL., DCL OXON., FRS, 1898

20th Century (1900's)

"The great epidemics of deadly diseases, in animals and mankind, are caused by vaccination." -- Charles M. Higgins, author of *The Horrors of Vaccination: Exposed and Illustrated*, 1920

"I believe vaccination has been the greatest delusion that has ensnared mankind in the last three centuries. It originated in FRAUD, ignorance and error. It is unscientific and impracticable. It has been promotive of very great evil, and I cannot accredit it any good." -- Dr. R. K. Noyse, MD, Resident Surgeon of the Boston City Hospital, author of *Self Curability of Disease*

"The chief, if not the sole, cause of the monstrous increase in cancer has been vaccination." -- Dr. Robert Bell; Vice President, International Society for Cancer Research, British Cancer Hospital, 1922

"Vaccination is the most outrageous insult that can be offered to any pure-minded man or woman. It is the boldest and most impious attempt to mar the works of God that has been attempted for ages. The stupid blunder of doctor-craft has wrought all the evil that it ought, and it is time that free American citizens arise in their might and blot out the whole blood poisoning business." -- Dr. J.M. Peebles, MD, MA, PhD, author of *Vaccination: A Curse and Menace to Personal Liberty*, 1900

"Cancer was practically unknown until the cowpox vaccination began to be introduced. I have seen 200 cases of cancer, and never saw a case in an unvaccinated person." -- Dr. W.B. Clark, MD, Indiana, New York Times article, 1909

"At present, intelligent people do not have their children vaccinated, nor does the law now compel them to. The result is not, as the Jennerians prophesied,

the extermination of the human race by smallpox; on the contrary more people are now killed by vaccination than by smallpox." -- George Bernard Shaw, Author and Playwright, 1944

"The English Ministry of Health omits to state that in 1872, when 85% of the infants born were vaccinated, there were 19,000 deaths from smallpox in England and Wales. While in 1925, when less than half the children born were vaccinated, there were only 6 deaths from that disease." -- Dr. Eleanor McBean, PhD, ND, author of *The Poisoned Needle*, 1957

"Vaccination causes miscarriage. A careful check showed that 47% of women who had been vaccinated in the second or third month of pregnancy, failed to give birth to a normal child." -- Vaccination at Work, The Consulting Pediatrician of Lanarkshire County Council, *The Lancet* (London), p.47, December 6, 1952

"My honest opinion is that vaccine is the cause of more disease and suffering than anything I could name." -- Dr. Harry R. Bybee

"Vaccination, instead of being the promised blessing to the world, has proved to be a curse of such sweeping devastation that it has caused more death and disease than war, pestilence, and plague combined. There is no scourge (with the possible exception of atomic radiation) that is more destructive to our nation's health than this monument of human deception-this slayer of the innocent-thiscrippler of body and brain-the poisoned needle." -- Dr. Eleanor McBean, PhD, ND, author of *The Poisoned Needle*, 1957

"The greatest LIE ever told is that vaccines are safe and effective." -- Dr. Leonard Horowitz, MPH (Master of Public Health), DMD, MA, Harvard University graduate

21st Century (2000's)

"The entire vaccine program is based on massive FRAUD." -- Dr. Russell L. Blaylock, M.D., neurosurgeon, editorial staff of *Journal of American Physicians and Surgeons*

"Vaccinations do not work. They don't work at all." -- Dr. Lorraine Day, MD

"Vaccinations are now carried out for purely commercial reasons because they fetch huge profits for the pharmaceutical industry. There is no scientific evidence that vaccinations are of any benefit." -- Dr. Gerhard Buchwald, MD, author of *Vaccination: A Business Based on FEAR*

"Don't get your flu shot." -- Dr. Raymond Francis, D.Sc., M.Sc., RNC, chemist, MIT graduate

"My own personal view is that vaccines are unsafe and WORTHLESS. I will not allow myself to be vaccinated again. Vaccines may be profitable but in my view, they are neither safe nor effective." -- Dr. Vernon Coleman, MB, ChB, DSc (Hon)

"Everyone who is vaccinated is vaccine injured-whether it shows up right away or later in life." -- Dr. Shiv Chopra, B.V.S., A.H., M.Sc., PhD, Fellow of the World Health Organization, former senior scientist at Health Canada, author of *Corrupt to the Core*

"The pediatrician indoctrinates your child from birth into a lifelong dependency on medical intervention. The first stage of indoctrination is the 'well-baby' visit. The well-baby visit is a cherished ritual of the pediatrician that enhances their income and does nothing constructive for your child. It's a worthless visit." -- Dr. Robert Mendelsohn, MD, board certified pediatrician

"Vaccines are the backbone of the entire Pharmaceutical Industry. If they can make these children sick from a very early age, they become customers for life. The money isn't really to be made in the vaccine industry. The money is made by Big Pharma with all of the drugs that are given to treat and address all of the illnesses that are subsequent to the side effects of vaccines." -- Dr. Sherri Tenpenny, D.O.

"Studies are increasingly pointing to the conclusion that vaccines represent a dangerous assault to the immune system leading to autoimmune diseases like Multiple Sclerosis, Lupus, Juvenile Onset Diabetes, Fibromyalgia, and Cystic Fibrosis, as well as previously rare disorders like brain cancer, SIDS (Sudden Infant Death Syndrome), childhood leukemia, autism, and asthma." -- Dr. Zoltan Rona, M.D., author of *Natural Alternatives to Vaccination*

"The vaccine industry is itself a FRAUD. I spent my whole career studying vaccines." – Dr. Shiv Chopra, B.V.S., A.H., M.Sc., Ph.D., Fellow of the World Health Organization, author of *Corrupt to the Core*

"The greatest danger to your health is the doctor who practices modern medicine." -- Dr. Robert Mendelsohn, MD, board certified pediatrician

Here are more testimonials from the book *The Poisoned Needle* by Eleanor McBean (1957):

"I have been a regular practitioner of medicine in Boston for 33 years. I have studied the question of vaccination conscientiously for 45 years. As for vaccination as a preventative of disease, there is not a scrap of evidence in its favor. Injection of virus into the pure bloodstream of the people does not prevent Smallpox. Rather, it tends to increase its epidemics and makes the disease more deadly. Of this we have indisputable proof. In our country (U.S.) cancer mortality has increased from 9 per 100,000 to 80 per 100,000 or fully 900 per cent increase, within the past 50 years, and no conceivable thing could have caused this but the universal blood poisoning now existing." -- Dr. Charles E. Page, Boston

"After collecting the particulars of 400,000 cases of small pox I am compelled to admit that my belief in vaccination is absolutely destroyed." -- Professor Adolf Vogt, who held the chair of vital Statistics and Hygiene in Berne University for 17 years

"I have very little faith in Vaccination even as modifying the disease, and none at all as a protective in virulent epidemics. Personally, I contracted smallpox less than six months after a most severe re-vaccination." -- Dr. L Hall Bakewell, Vaccinator General of Trinidad

"Vaccination is the infusion of contaminating element into the system, and after such contamination you can never be sure of regaining the former purity of the body. Consumption follows in the wake of vaccination as certainly as effect follows cause." -- Dr. Alexander Wilder, Editor of the New York Medical Times, Professor of Pathology at the United States Medical College of New York and author of *Wilder's History of Medicine*

"Vaccination does not stay the spread of smallpox nor even modify it in those who get it after vaccination. It does introduce into the system, and therefore contributes to the spread of, tuberculosis, cancer and even leprosy. It tends to make more virulent epidemics of smallpox and to make them more extensive. It does just what inoculation did - cause the spread of disease." -- Dr. Walter M. James, Philadelphia

"I can add my testimony to the others... that vaccination contributes to the great increase in cancer." -- Dr. Forbes Laurie

"We have no proof of the boasted effectiveness of any form of anti-toxin, vaccine or serum. The true figures on vaccination for smallpox have never gotten before the public, though they can be seen in the files of the various departments of the Army as well as the government, if one cares to look for them. If the record of vaccination in the Philippines alone were ever to become a matter of general knowledge it would finish vaccination in the whole country, at least among those who are able to read and think for themselves. After three years of the most rigid vaccination, when every Philippino had been vaccinated from one to six times, there occurred the severest epidemic of smallpox that the Islands had ever seen, with a death-rate running in places to over 70 per cent, and in all, well over 60,000 deaths. Is it any wonder the public is getting a little suspicious of us and our vaunted 'medical discoveries?' The wonder to me is that there are still millions of them willing to submit to vaccination and serum treatment." -- Dr. William Howard Hay, Buffalo, New York

"What hope is there for medical science to ever become a true science when the entire structure of medical knowledge is built around the idea that there is an entity called disease which can be expelled when the right drug is found?" -- Dr. John Henry Tilden, M.D., author of *Toxemia Explained*

"There is no question but that perfect sanitation has almost obliterated smallpox, and sooner or later will dispose of it entirely. Of course, when the time comes, in all probability the credit will be give to vaccination." -- Dr. John Henry Tilden, M.D., author of *Toxemia Explained*

"When a mad dog enters a community and bites a child, the whole population rises up and demands the death of the creature, and desires that all available means be immediately used to eliminate from the system of the child the virus that has been so cruelly inserted. The action of the people in this case is a very natural one; but let me tell you that where the bite of a mad dog has caused death in one case, the mad doctor with his calf-lymph and poisoned needle has caused tens of thousands of deaths. Vaccination is the most outrageous insult that can be offered to any pure-minded man or woman. It is the boldest and most impious attempt to mar the works of God that has been attempted for ages. The stupid blunder of doctor-craft has wrought all the evil that it ought, and it is time that free American citizens arise in their might and blot out the whole blood-poisoning business." -- Dr. J. M. Peebles, M.D., Ph.D., author of *Vaccination: A Menace to Personal Liberty*

"Never in the history of medicine has there been produced so false a theory, such fraudulent assumptions, such disastrous and damning results as have followed the practice of vaccination; it is the ultima thule (extremity) of learned quackery, and lacks, and has ever lacked, the faintest shadow of a scientific basis. The fears of the people have been played upon as to the dangers of smallpox and the sure prevention by vaccination, until nearly the whole civilized world has become physically corrupted by its practice." -- Dr. E. M. Ripley, as stated in a public address delivered in New Britain, Connecticut

"To affirm that there never has been any scientific warranty for a belief in the alleged protective virtues of vaccination and that its practice is backed by ignorance and indifference, is a sorry charge to make against the medical profession... but the charge, I regret to say is only too true. I know whereof I affirm, for I, too, must plead guilty of the charge. Before discovering my mistake I had vaccinated more than 3,000 victims, ignorantly supposing the disease I was propagating to be a preventative of smallpox. Having taken for granted what my teachers had asserted, I was a staunch believer in the alleged efficacy of vaccination as a prophylactic against smallpox. I remained in this blind and blissful state of ignorance for several years, and not until I acquired a little experience in the school of observation and reflection did I discover that my faith was pinned to a shameful fraud. With Pascal, I 'considered the affirmation of facts more powerful than assertions of men.' I then began a careful study of the relations existing between smallpox and

vaccination, with the ultimate result that I was forced to entirely abandon all faith in the medical dogma of vaccinal protection against smallpox. During the epidemic, I had under my inspection 28 smallpox patients, all of whom, with one exception, had been 'successfully' vaccinated. Several of these patients had been re-vaccinated before contracting the disease. Thus I was forced, through the stern logic of disagreeable facts, to the unwelcome conclusion that vaccination had not protected these victims of smallpox." -- Dr. J. W. Hodge, M. D. of Niagara Falls, New York

"After a careful study of the history of vaccination and the extensive experience in its use, I am thoroughly convinced that:

1. Vaccination is utterly useless as a preventive against smallpox, that millions of vaccinated persons have died of smallpox.
2. The practice of this degrading rite is enforced by doctors as a dogma without being understood; that like other infamous dogma it is good only for "fees"
3. Inoculation as unanimously believed in and practiced by the "regular" doctors for 100 years was guilty of multiplying smallpox....
4. Smallpox epidemics were checked by cessation of inoculation and not by the introduction of vaccination.
5. Smallpox continued to increase under vaccination until sanitation and improved nutrition came into more general use.
6. Health measures have controlled smallpox, and vaccination has claimed the credit.
7. Vaccination protects from smallpox only when it kills the patient before smallpox develops.
8. Vaccination has been the means of disseminating (spreading) consumption, cancer, syphilis, and many other fatal and loathsome diseases.
9. Tuberculosis is a disease common to cattle and to human beings and has frequently been conveyed by vaccination from the former to the latter, by way of vaccination.
10. Edward Jenner shaddled a legacy of disease and death on the human race and incidentally made \$150,000 by the transaction.
11. Many doctors and some editors are making money by propagating this curse. (vaccination)
12. Vaccination is called 'successful' when it succeeds in making healthy people diseased.

13. Disease as the result of vaccination is the logical harvest from the seed sown.

14. Vaccination has no scientific basis upon which to rest its claims and no analogy in any ascertained principle or law in nature.

15. The so called 'spontaneous cow-pox' (from which vaccine is made) is a myth; the disease so named, being tubercular or syphilitic in its nature.

16. When vaccination kills its victims the facts are suppressed and the death certificates name other diseases as the cause.

17. Compulsory vaccination has been abolished in England, Switzerland, and certain other countries, while laws sustaining this crime still disgrace the statute books of many states in free (?) America.

18. Vaccination is one of the foulest blots on the escutcheon of the 'noble art of healing'"

-- Dr. J. W. Hodge, M. D. of Niagara Falls, New York

"Vaccination is not in any sense scientific; doctors never know what the result will be in any case; they don't absolutely know that it ever prevented smallpox; they never know when they have pure vaccine; the practice is born of pure superstition; and it has been a breeder of many kindred fallacies." -- M. M. Gerner, author of *The Vaccination Imposture*

"Vaccination does not stay the spread of disease or even modify it in those cases who get it after vaccination. It does introduce into the system Tuberculosis, Cancer, and Leprosy. It does just what inoculation did: cause the spread of disease." -- Dr. Walter James, Philadelphia

"From its inception until the present day, the vaccination scheme has been an endless record of lies, deception, fraud, juggling statistics, and falsifying death certificates in order to preserve vaccination from reproach and to secure its continuation. . . and all this after more than a century of terrible experience, which has demonstrated that vaccination has killed more than smallpox, besides crippling and disfiguring millions more." -- Thomas Morgan, author of *Medical Delusions*

"At first it was confidently asserted that vaccination would exterminate smallpox. That claim has been abandoned by Jenner's most enthusiastic followers and the claim that re-vaccination will exterminate smallpox, was set up in its stead. The proof that the theory and the practice espoused by

Jenner have been everywhere abandoned is found in the fact that all vaccinists now admit the necessity of re-vaccination, but do not agree on the period that may be allowed between successive repetitions of the 'protective' rite." -- Dr. J. W. Hodge, New York

"I have removed cancers from vaccinated arms exactly where the poison was injected." -- Dr. E. J. Post, Physician

"Cancer was practically unknown until cowpox vaccination began to be introduced. I have had to do with 200 cases of cancer and I never saw a case of cancer in an unvaccinated person." -- W. B. Clark

"I am convinced that some 80 per cent of these cancer deaths are caused by the inoculations or vaccinations they have undergone. These are well-known to cause grave and permanent disease of the heart also." -- Dr. Herbert Snow, Surgeon of the London Cancer Hospital

"I have no hesitation in stating that in my judgement the most frequent disposing condition for cancerous development is infused into the blood by vaccination and re-vaccination." -- Dr. Dennis Turnbull

"I am thoroughly convinced that the increase of cancer is due to vaccination." -- Dr. Forbes Laurie, Medical Director of the Metropolitan Cancer Hospital, London

"Abolish vaccination, and you will cut the cancer death-rate in half." -- Dr. F. P. Millard, Osteopath of Toronto and President of the National League for Prevention of Spinal Curvature

"Two well-known causes of this fatal malady (cancer) are, 1) nicotine tobacco poisoning and 2) vaccination, which is certainly the most prolific cause of both external and internal cancer... Vaccine virus poisons the lymphatic system, impairs its function and lays the foundation for internal cancer, for which there has hitherto been no (successful medical) treatment or relief." -- Dr. J. Morrison, Professor of Chemistry and Toxicology in the Medical Department of the National University at Washington, D. C.

"So-called successful vaccination is nothing less than the implanting into the body, the virulent products of diseased animal tissue, with the effect of inducing actual disease. The performance of such an operation, in the very nature of the case, violates every principle of modern aseptic surgery, the legitimate aim of which is to remove from the organism the products of disease and never to introduce them." -- Dr. J. W. Hodge

"The only safe vaccine is a vaccine that is never used." -- James R. Shannon, National Institutes of Health

"The medical authorities keep lying. Vaccination has been a disaster on the immune system. It actually causes a lot of illnesses. We are changing our genetic code through vaccination." -- Dr. Guylaine Lanctot, M.D., Canadian author of the best-seller *Medical Mafia*

"If we look closely, we realize that health for all, according to the WHO (the World Health Organization), means medicalization and vaccinations for all. That is to say, sickness for all." -- Dr. Guylaine Lanctot, M.D., Canadian author of the best-seller *Medical Mafia*

"The decline in infectious diseases in developed countries had nothing to do with vaccinations, but with the decline in poverty and hunger." -- Dr. Gerhard Buchwald, M.D.

"Without propaganda there can, of course, be no large-scale immunization, but how perilous it is to mix up propaganda with scientific fact. If we baldly told the whole truth it is doubtful whether the public would submit to immunization." -- Dr. Charles Cyril Okell

"The very first requirement in a hospital is that it should do the sick no harm." -- Florence Nightingale

"The most serious disorders may be provoked by the injection of living organisms into the blood, into a medium not intended for them, and may provoke redoubtable manifestations of the gravest morbid phenomena." -- Antoine Bechamp, French scientist

"When will medical doctors realize that they're mostly just high-paid, drug-dispensing technicians for a dangerous religion that depends on everyone being ignorant about information relevant to vaccines?" -- Dr. Suzanne Humphries, MD

"Vaccines make people sick. They don't work. They don't protect. The use of vaccines is totally wrong! It's perfect nonsense based on fear. It's fear of the disease." -- Dr. Guylaine Lanctot, M.D.

"Knowing what I know now, I would not vaccinate my children and run the risk of them getting diabetes, asthma, eczema, becoming more susceptible to meningitis, and ending up chronically disabled." -- Dr. Jayne Donegan

"We need to stop calling it Autism and call it what it is! Vaccine Induced Brain Injury." -- Dr. Brian Hooker, Ph.D. PE

"Vaccination encourages medical dependence and reinforces belief in the inefficiency of the body. It creates people who need permanent assistance. It ensures the submission of the herd so as to better dominate and exploit it." -- Dr. Guylaine Lanctot, M.D.

"Vaccination is a barbarous practice and one of the most fatal of all the delusions current in our time. Conscientious objectors to vaccination should stand alone, if need be, against the whole world, in defense of their conviction." -- Mahatma Gandhi

"The further I looked the more shocked I became. I found that the whole vaccine business was indeed a gigantic hoax." -- Dr. Archie Kalokerinos, MBBS, PhD, FAPM

"Because routine immunizations that bring parents back for repeated office calls are the bread and butter of their specialty, pediatricians continue to defend them to the death. The question parents should be asking is: 'Whose death?'" -- Dr. Robert S. Mendelsohn, MD

"The great epidemics of deadly diseases, in animals and mankind, are caused by vaccination." -- Charles M. Higgins, author of *The Horrors of Vaccination: Exposed and Illustrated*, 1920

"After collecting the particulars of 400,000 cases of small pox I am compelled to admit that my belief in vaccination is absolutely destroyed." -- Professor Adolf Vogt, 17-Year Chair of Vital Statistics and Hygiene in Berne University

"Never in the history of medicine has there been produced so false a theory, such fraudulent assumptions, such disastrous and damning results as have followed the practice of vaccination." -- Dr. E. M. Ripley, public address delivered in New Britain, Connecticut

"The pharmaceutical 'business with disease' is the largest deception and fraud business in human history. The product 'health' promised by drug companies is not delivered... Instead, the 'products' most often delivered are new diseases and frequently, death." -- Dr. Rath, MD

"It is well known that measles is an important development milestone in the life and maturing processes in children. Why would anybody want to stop or delay the maturation processes of children and their immune system?" -- Dr. Vera Scheibner, PhD

"So what are the flu shots 'really' for? You won't like the answer, but I'll tell you what I now believe to be true: The purpose is to 'soft kill' the global population. Vaccines are population control technologies..." -- Mike Adams, author of *Food Forensics*
